"SPEED" DAWES

CHARLES G. DAWES, chairman of the commission to inquire into government relief for soldiers, is displaying an ability to yank the red tape out of government which makes gentlemen of the old school sit up and gasp. Dawes believes in extending relief before the proposed beneficiaries die of old age. At a recent meeting of the commission he broke into an academic argument with, "For God's sake, let's get through to-day! Let's don't get jobbed up with a lot of extraneous matter. We know an intolerable condition exists. Everybody does. What we want is speed. Our job is to provide the machinery. We are not concerned with details." To paraphrase Nelson, "don't argue, boys, the poor fellows are suffering."

Mr. Dawes stood firmly against the extension of discussions when a controversy arose as to the number of hospital beds which might be available for ailing service men. "We are going to stay right here without lunch until this thing is finished," he declared, "and then we are going into executive session and prepare a report for the President." They stayed. The commission concluded its inquiry in jig time and the report recommends consolidation under one head of all government bureaus dealing with soldier relief.

There was a famous football trainer whose tactics in overcoming difficulties and whipping his teams into shape to win victories are recalled by the Dawes methods of getting results. They called the trainer "Hurry Up" Yost. His teams went through the opposition line with dispatch and eclat, working like a high-power dynamo of efficiency. That is the style of play we must have in government and the public approves the 'pep' of "Speed" Dawes.

SOME PEOPLE HAVE A HARD TIME OF IT

Trying to Get Along With Low Vitality And Weak Blood

NOT FAIR TO THEMSELVES

Pepto-Mangan Builds Rich Red Blood And Restores Strength

If you want to succeed in your work—to get to the top, look first to your health. Be physically fit. Keep your blood in good condition.

If your blood is bad, you lose enthusiasm. Little things bother you. Instead of concentrating on your work, you drowse. You try to pull yourself together. It takes all your energy to do just average work.

Perhaps your blood has become clogged with poisons. You are just beginning to feel it. You need the good blood tonic, Pepto-Mangan. It contains ingredients that feed your blood and purify it. You get more red corpuscles. Then your energy comes back and you eat better, feel better, and look better. It shows in your daily work. You get things done without exhausting yourself. You go back to normal—the way you should be.

There is but one genuine Pepto-Mangan that is "Gude's." It is put up in both liquid and tablet form. Each has the same medicinal value. Ask your druggist for "Gude's" and look for the name "Gude's" on the package. If it is not there, it is not Pepto-Mangan. Advertisement.

Ford
THE UNIVERSAL CAR

Every Ford Product a Helper

NOW'S the time to buy that Ford Car or Ford Truck or Fordson Tractor. Never were higher quality materials woven into these great utilities; never have prices been more reasonable, nor that dependable and excellent "After-Service" so complete.

Machine work is always more precise than hand work. The special tools and machines in our garage are the same as those being used and recommended because of their precision and time-saving qualities, by the Ford Motor Company. Our modern and up-to-the-minute equipment makes it possible for us to do any work on your car, truck or Fordson tractor from a minor adjustment to a complete overhaul. The promptness with which we do the work is a by-product of these specially designed machines; and we charge only the reasonable Ford prices for your work.

If your Ford car isn't running at top-notch efficiency, bring it here to Ford headquarters—that's to us. One of our Ford mechanics will adjust or repair it for you with as little delay as possible. Keep your car in good condition. It's the most economical way.

Strange Hotel.

What is probably the queerest hotel and restaurant in the world is that recently erected at Atlantic City, N. J. It takes the form of a monster elephant. Seen from a distance the resemblance of the structure to a live elephant is remarkable. As you approach it its huge size becomes apparent, but you quickly observe that it is only a thing of wood and iron, but most cleverly contrived. It boasts of many beds, and a dining pavilion on the animal's back capable of accommodating two hundred people. One reaches this novel restaurant by means of a staircase that runs up through the animal's legs and body. Here and there windows give the necessary light. Needless to say the elephant hotel is causing quite an attraction, and its owner bids fair to reap a good harvest as a result of his ingenuity.

Virginia Still Holds Record.

Even with the inauguration of an Ohioan as president next March assured, as nearly as human events can be, Virginia will still hold the record for native sons in the White House. The record then will stand: Virginia, Washington, Jefferson, Madison, Monroe, William Henry Harrison, Tyler, Taylor, Wilson, 8; Ohio, Grant, Hayes, Garfield, Benjamin Harrison, McKinley, Taft, Harding or Cox, 7. Of Virginia's sons five were of English paternal ancestry, two Scotch, one Welsh. Of Ohio's sons three were of English paternal ancestry, two Scotch, one Scotch-Irish. We have seen no authorized statement of the paternal ancestry of Harding or Cox.

Experiments in Road Building.

In order accurately to determine the durability of the various kinds of roadway, the government bureau has a stretch of roadway at Arlington representing all the different methods of road building, and over this a heavy machine is drawn back and forth by cable. This is supposed to reproduce the action of vehicles passing over it and the results are carefully noted and compared. The result of the operations will be used as a guide to the expenditure of nearly \$300,000,000 which will be made under government auspices during the next three years.

WIFE TAKES HUSBAND'S ADVICE

And Is Made Well Again by Lydia E. Pinkham's Vegetable Compound

Springfield, Mass.—"The doctor told my husband that I had to have an operation, otherwise I would be a sickly woman and could not have any more children on account of my weakened condition. I refused to have the operation. My husband asked me to try Lydia E. Pinkham's Vegetable Compound to see if it would not help me. For the first four months I could do but little work, had to lie down most of the time, was nervous and could eat hardly anything, but my husband was always reminding me to take the Vegetable Compound, which I did. Of my eight children, this last one was the easiest birth of all and I am thankful for your Vegetable Compound. I recommend it to my friends when I hear them complaining about their kids."—Mrs. M. NATALE, 72 Fremont St., Springfield, Mass.

Sickly and unhappy women make unhappy homes; and after reading Mrs. Natale's letter one can imagine how this home was transformed by her restoration to health. Every woman who suffers from such ailments should give Lydia E. Pinkham's Vegetable Compound a fair trial. It is surely worth while.

Practical Seamen.

The old-time English sea-faring men were trained to the service in the service itself. Their lessons were those of duty from the rank of cabin-boy to that of master. Such a school was likely to turn our men of efficiency, but not of extensive learning. There are many interesting stories told of them.

For example, there was the man who could neither read nor write, but who could take his vessel without mistake from port to port. The lights on the coast were his only books, and his one intellectual exercise consisted in calculating the set of the ebb and the flood.

Important to Mothers

Sounds Reasonable.

Three-year-old Artie wasn't feeling very well. Papa said: "Let me see your tongue. Your head seems quite hot." After looking at it, papa said, "Your tongue has a little coat on it."

Artie looked surprised. "Is it the little coat that keeps my head hot, papa?" he asked.—Boston Transcript.

EASE THAT ACHING BACK!

Is a throbbing backache keeping you miserable? Are you tortured with stabbing pains? Is the trouble making your work a burden and rest impossible? Spend some time in the sun, cold air, and aches time sign that the kidneys need help. Colds, chills, and the changing weather of early spring, strain the kidneys and slow them up. Poisons accumulate and then comes backache, headaches, dizziness and bladder irritation. Use Doan's Kidney Pills. They have helped thousands. Ask your neighbor!

A Virginia Case

Mrs. Mary Williams, 93 Duke St., Alexandria, Va., says: "My back pained me so at times I could hardly get about. Nights, lying in bed, I could not sleep, though my back were broken. My Kidneys acted much like a rattle. They were stiff and sore. I was completely run down. Doan's Kidney Pills soon gave me relief and after I had finished two boxes, I was well again."

LESSON FOR APRIL 24

POVERTY AND WEALTH.

LESSON TEXT—Isa. 5:8-10; Amos 8:4-7; Luke 16:19-25.

GOLDEN TEXT—For where your treasures will your heart be also—Luke 12:34.

REFERENCE MATERIAL—Prov. 8:1, 9; Matt. 6:19-34; 13:22; Luke 6:24; 12:13-24; 1 Tim. 6:10, 17-19.

PRIMARY TOPIC—A Kind Woman—II Kings 4:8-11.

JUNIOR TOPIC—What Two Men Did With Their Money—Luke 12:15-21; Acts 20:35.

INTERMEDIATE AND SENIOR TOPIC—Earning and Using Money.

YOUNG PEOPLE AND ADULT TOPIC—Problems of Poverty and Wealth.

1. Wealth in the Hands of the Few (Isa. 5:8).

2. "Join house to house" (v. 8).

The avaricious greed of these men caused them to enlarge their estates at the expense of their neighbors. In agricultural districts it took the form of land-grabbing and the eviction of the small proprietor, and in the commercial centers the crowding out of the small concerns by the large corporations. God hates the greed that is creating the inequalities in the economic and social order today.

II. Methods Employed in the Acquisition of Wealth (Amos 8:4-6).

1. "Swallowed up the needy" (v. 4).

"Swallowed up" literally means to pant after, like a beast after its prey with eagerness to devour. Many today get rich by swallowing up the needy. This is done by the money lender who finds a man in straitened circumstances, loans him money at an exorbitant rate of interest, forecloses the mortgage at the critical hour, taking possession of the man's property.

2. "To make the poor of the land to fall" (v. 4). They were grasping after the houses and lands of the poor, and in order to accomplish this they impoverished them in every way possible so as to root them out of the land. This they doubtless did by withholding from them their lawful wages, an example of which we find in James 5:4, and placing exorbitant taxes upon them and cheating them in the courts.

3. Begradged the loss of holy days (v. 5). They were restlessly impatient because of the restrictions of those days. Though outwardly conforming to the Sabbath they were seeking all the while to commercialize it. Many today go to church for the sake of respectability while impatiently waiting for the day to pass in order to pursue their business.

4. Dishonesty in business dealings (v. 5). (1) They made the ephah small. Their measures were less than the price paid for. (2) They made the shekel great. The shekel being the coin used to pay bills, the merchants put into circulation overweight shekels thus getting a higher price for their grain. The purchaser was thus cut on both sides. (3) Falsified their balances. Even the scales by which the gold and silver were weighed had been tampered with, making them guilty of cheating in three ways.

5. They bought the poor for silver (v. 6). The poor were reduced to such poverty by the above means of cheating that they were obliged to sell themselves into slavery, even for a pair of shoes.

6. They sold the refuse of the wheat (v. 6). In time of famine they even sold to the people that part of the wheat which was intended for the cattle.

III. God's Judgment Upon Them (Amos 8:7; cf. Isa. 5:9, 10).

God says "I will never forget." Not one act of greed and oppression will escape God's notice.

1. Many houses shall be desolate. They obtained their houses by wicked means, and they should be removed from the land, thus not being able to enjoy them.

2. The land unproductive (v. 10).

IV. A Picture of a Rich Man and a Beggar (Luke 16:19-25).

1. The rich man. He had much goods. He operated in the highest society. (2) The beggar. He not only was poor, but helpless. He had no place in the social order. He had no one to feed him, nor anyone to care for his sores except as the dogs licked them.

2. Their deaths. (1) The rich man was taken by death. He seems to have had a great burial. (2) The beggar. There is nothing told as to what was done with his body when he died. Perhaps the very dogs who licked his sores fed upon it.

3. Their destinies. (1) The rich man lifted up his eyes in hell. The beggar was carried by the angels into Abraham's bosom. (2) What determined them. The future life grows out of the present. The rich man was interested in the things of this life, so selfish that even when the poor beggar was laid at his gate he gave him no attention. He not only lacked the kindness of seeking opportunity to do good, but refused the one opportunity that was thrust before him. (3) Their fixedness. Their destinies were determined by their actions while alive, and after death there was no possibility of a change. The rich man lifted up his eyes in hell. In addition to the suffering of hell he had the anguish of neglected opportunities. His memory was still active.

Traveling Life's Journey.

You can travel life's journey by the upper or lower road. The upper road is up and down hill; you sometimes come out where you see the glories of God and the wonders of man. But it is not so soft. The lower road is down hill—a nice easy grade down into the alluring charms of leisure. If life is no effort you may know what road you are on.

Some Charming New Wraps

Latest Outer Garment for Spring

Wear is of the Coat and Cape Type.

Charming and very smart are the new coats which, though very few and far between, are beginning to make their appearance. One hesitates whether to dub them coat or cape, and compromised on wrap, which quite satisfactorily covers them.

One, of French blue, was drawn in rather closely about the waist, and came just below the knees—that is, the main part of it did. This was straight, and cut on the lines of a rather close cape. A smaller cape, which came to the waistline, was embroidered in a single thread of silver, and a close collar of gray squirrel completed the wrap.

Equally interesting was another wrap of tomato red, which was cut on the lines of the old-fashioned circular cape. At intervals in the fabric was woven a wide double stripe of cream color, which ran through the material just above the knees, just above the waist,

IN TAILOR-MADES

Little Jacket Feature of New Spring Outfits.

Garment is Jaunty and Winsome Affairs of Fairly Straight and Unfitted Lines.

Close beside the spring tailleur of classic lines, and guiltless of braiding or trimming, there appears this spring that perky little dressy suit so unconventional in many ways.

The new little jackets are called by the French "paletot sacs" and they are jaunty little affairs of fairly straight and unfitted lines. They end at just about the waistline, unbelted, left loose and rippling where they are finished.

Jean Paton shows the paletot sac that is quite short with a wavy line at the bottom that rather slumps toward the back than otherwise. A suit of this type is made of moroccan crepe in very dark blue faced with silk printed in the designs and colors of a cashmere shawl. The little jacket, by the way, is reversible and is well suited in either role to the little one-piece frock that is designed to be worn with it.

Most of these short coats are made to accompany the one-piece dress

HELPS FOR THE HOUSEWIFE.

Chili sauce may be prepared any time during the year with a few canned tomatoes, adding such spices, chopped pepper and onions as suits the taste. When preparing catsup or chili sauce for winter in large quantities, put the tomatoes through the meat chopper and use the juice, canned, for soup.

The old can rubbers together in the form of a mat to use to save the enamel of the sink, when using dishpans and drainers. These mats are also good to use on ice to keep dishes from slipping.

Place small rings on the inside hem of the curtains in bedrooms, have small hooks on the side of the case-meat; the curtains may be hung by the rings at night, securing better ventilation and saving the blowing of the curtains. These hooks and rings will be found useful to hang up the curtains when sweeping the room.

When bleaching clothes, as soon as dry turn the hose on them, then let the sun dry; the repeated wetting and drying will bleach cloth much sooner than the old manner.

Baskets and mats of sweet grass may be restored to fragrance by a quick dipping of the article into boiling water.

Wood, such as posts, stakes or trellises which must be driven into the ground, will last twice as long if the surface is charred by fire.

Make the candy for the children at home and save the price of one pound of candy, having three of home-made.

To Fill Cracks—Soak newspaper in paste made by using one-half pound of flour, one-half pound of alum, and three quarts of water. Mix well and boil. It should be as thick as putty when it is ready to use. Force it into cracks in floors, wainscoting or other cracks. It hardens like paper mache and lasts permanently any cracks.

After painting furniture white, rub it with powdered pumice stone, using a cloth dampened in water. The paint should be thoroughly dry and at least two coats. This gives a satin finish.

Paint the bottom cellar stair white and thus avoid accidents.

He that has character need have no fear of his condition. Character will bring condition after it.—H. W. Beecher.

SOME MAIN DISHES.

Here are a few dishes, some of which may be used as the main dish for the meal.

Mexican Ham.

—Take a slice of ham cut twice as thick as that used for ordinary frying, rub a small teaspoonful of mustard into its surface with a tablespoonful of brown sugar. Lay this in the bottom of a large casserole or baking pan. Pare and slice thin sufficient potatoes for the family. Cover the ham to the depth of two or three inches. Dot with bits of butter unless the ham has plenty of fat on the edges. Sprinkle with pepper and cover with milk as you would prepare escalloped potatoes. Bake in a moderate oven for two hours. The ham will be tender and delicious and can be cut with a fork; the potatoes will be seasoned to a turn and the family has a one-dish dinner which will serve, if the family is small, for two meals.

Those who have prepared them say that dried fruits make more delicious butters than the fresh fruit. For apple butter take the dried apples, washed and soaked over night in cider or water, then cook them in the same liquid until tender. A fireless cooker is a good place to cook it in. Add about one-third of the bulk in sugar. Cook as thick as desired; more sugar may be added if liked sweeter. A delightful change is made in blending different flavors such as apricots and apples, using two-thirds the quantity of apple to one-third of apricots.

Cottage Cheese Pie.—Melt two tablespoonsfuls of butter; in it cook two tablespoonsfuls of cornstarch and one-half teaspoonful of salt; add two-thirds of a cupful of honey or sugar, one cupful of cottage cheese pressed through a ricer, the yolks of three eggs beaten light, the grated rind of a lemon or orange; mix thoroughly and turn into a pastry lined plate in the same manner as for custard pie. Bake until firm. Beat the whites of three eggs light, add four tablespoonsfuls of sugar and spread the meringue over the pie. Dredge with a teaspoonful of sugar and let cool in a moderate oven until the meringue is lightly tinted. Serve the same day it is made.

Scotch Shortbread.—Cream one cupful of butter; add two-thirds of a cupful of almond extract. Mix all together, teaspoonful of salt, one-half teaspoonful of almond extract. Mix together and press the mixture into a shallow pan; prick with a fork and bake about forty minutes until a light yellow.

The New Hats.

The flower and fabric or braid hat, featuring brim of flowers and crown of silk or braid, is one of the popular features of the season. For summer wear the indications are that large hats will be in high favor. This means, of course, that flowers will be a preferred trimming. Long "sketchy" wreaths of flowers that drap the crown and hang streamer-like at one side are much used, and there seems to be a leaning to very large flowers, only one or two of these mammoth blossoms being required to trim the entire hat.

WANTS OWN FARM

Why One Youth Seeks the Land of Opportunity.

Beckoning Hands of Independence and Wealth Stretch Out From Western Canada to Those Who Have Faith and Courage.

Strolling around the exhibit room of the Canadian government office in St. Paul, studying the grain, and picking up an odd piece or two of literature describing farming and its results in Western Canada, a dapper, well-built, strapping six-footer said to the manager, "I've been having a grand whirl of living for the past few years. I used to work on my uncle's farm in Iowa. I heard of the big fat pay envelopes that the city chaps were getting every week. I went to the city, and I began getting them, too. I had all the excitement they would bring—theaters, dinners, swell clothes and taxis. I surely saw a lot of that life in days gone by I had anxiously gazed upon and secretly wanted to try."

"But I'm driven to earth now. I'm still working, but the pay envelope is thinner. Not working steadily, you know, and I sort of miss those silk-shirt times. I went to Western Canada once, and I think I'll make another trip."

"I was up there five years ago. I want money, and lots of it; I want to be my own boss, but I haven't much coin to start with. I want to get into that class that don't have to worry about a 'buck' or so. I know fellows out there in Canada who went there, a few years ago, got a quarter section—some homesteaded and some bought on easy payments—and they are well off today. A number of the boys from my own state paid for their lands from a single crop. I may not be as successful as they were, but I want to try."

He wanted to talk, and the manager was a good listener. He continued: "I want to have my own home, and raise my own cattle; I want hogs and poultry, and milk and eggs to sell. Can I get a market?"

He was assured that he could, and that he could get a decent-sized crop to thrash every fall.

"You know," he said, "if the farmers on five-hundred-dollar-an-acre land can make money, my reasoning leads me to believe that I can grow as many dollars an acre from that cheaper land in Western Canada."

This period of semi-unrest is causing more thinking and planning for the future than probably at any time in the past. The desire for personal and financial independence is growing. To secure this, the first real source of wealth is the land itself. That is the solution. During the era of high prices, doubtless there was some inflation of land values. So the new man,—the young man wishing to make a start on a farm—was con-

Reds and Art.

The Russian Reds are guilty of much rough work, but it appears that they do sometimes know and reverence the treasures of art. The famous Hermitage gallery in Petrograd has been reopened and again all the paintings it once contained, except a few unimportant ones, are hung. In this collection are great masterpieces bearing the names of Titian, Van Dyck, Rembrandt, Velasquez and Murillo. The Bolsheviks removed the paintings to Moscow in the spring of 1918 when it was feared the Germans would capture Petrograd, and the priceless paintings were placed in the hands of a committee at the head of which is the novelist, Maxim Gorky. Private collections which the owners turned over to the Gorky committee are also safe.

**FABRIC INJURY TO INNER TUBE**

After Blowout Occurs Tires Should Not Be Run Farther Than Is Necessary.

EMERGENCY REPAIRS VITAL

Breaks Often Caused Weeks Previous When Automobile Ran Over Some Object in Road While Running at High Speed.

Have your ever had a blowout when your car was standing still, after coming from a drive on a smooth, level road?

Or have you had the experience of going out to your garage and finding a perfectly flat tire? It was all right when you drove in the evening before. Something had happened to it over night.

You removed the tire and tube, found the tube worn and a clean break on the inside fabric of the tire.

What caused the fabric to break? It is very probable that it was started a week or even a month previous, when you ran over a brick, a rut or a hole in the street while running at high speed.

Small Break at First.

Then again it may have been caused when, in turning around in the street, you allowed the front or rear wheels of the car to bang into the curbstone. Of course, this is more likely to happen if the brakes are not in good working order.

At first the break may be small, but the broken threads of the fabric at the injury chafe each other while the tire is in use, setting up an internal friction that quickly causes the break to enlarge.

The other plies soon break down, the tube is pinched and a blowout results. Generally this occurs some time after the original break and when circumstances point to no apparent cause.

It is unfortunate that the bruise or fabric break is seldom manifested by any indication on the outside of the tire, for the tough tread rubber stretches when the tire strikes the stone or curb, but fabric can only stretch a certain limit, and when taxed beyond that point will break. Often only the innermost ply is injured.

The best way to avoid stone bruises is to avoid hitting the stones, the bumper and the ruts in the roads as much as possible.

For Emergency Repairs.

After a blowout comes, do not run the tire a foot farther than is necessary, but immediately put into a temporary repair or change tires, and as soon as possible take the injured tire to the vulcanizer for a permanent repair.

For an emergency repair on the road use a rim-cut patch. It should be applied without cement so that it can be removed later on under less stressful conditions, and a permanent vulcanized repair made.

If the tire is too old to be worth vulcanizing, a permanent repair can be made that will allow the tire to be used many more miles by using the rim-cut patch, and cementing it in with patching cement.

"How to Do the Job."

To do this follow these directions: First be sure that the fabric at the break is dry, then clean the inside of the tire thoroughly at the break with gasoline for a space slightly larger than the patch. After it is dry apply two coats of patching cement, allowing time for each coat to dry and become tacky. Give the outside of the patch the same number of coats, and after this cement is dried insert the patch by seating the toe of the tire bead in the crease in the patch wing. Now work the patch down all the way across the tire, pressing it down firmly and smoothly, and then adjust the other bead.

HIS "HUNCH" WAS CORRECT

Actor's Assertion That Someone in the Audience Had Bottle Quickly Proved True.

A peculiar incident happened in a local theater, which provided enough comedy to make the performance very amusing. In one of the acts, prohibition was made the butt of all the actor's jokes, and he happened to be one of those fellows who makes reference to the audience.

"Where is that bottle?" he shouted at the audience. "Someone in the house has a bottle, with the cork off."

Hardly had the laughter subsided when there was a "plunk," as a bottle dropped accidentally from the grasp of someone down in front. It happened just at the opportune moment and the house went into roars of laughter.

Whoever dropped it made no attempt to reclaim it, even though the bottle might have contained anything from milk to medicine. But the M. A. T. has been told by someone who was close to the sound that some time after he saw a woman slowly making an attempt to reach for the fallen wet goods.—Lawrence (Mass.) Telegram.

HOW TO SEE NEW YORK

[COMMUNICATED]
No. 109 SHERMAN AVE.,
New York City
EDITOR MIDDLETOWN TRANSCRIPT

Dear Sir:- I saw in your paper an advertisement by the Penn. R. R. of an excursion to New York City, and of some of the places to visit, but they did not tell how to get to these places. My experience in travelling all over this earth has been, if one will figure out how to go when they want to go, they will save a lot of time, and see more in less time, than if they did not follow a set route. For the benefit of your readers, I take the liberty of submitting a sight-seeing tour.

As the people will arrive at 6:35 A. M. they will want to brighten up.

Wash up in station, soap and towel, five cents.

Look at station, finest in the world.

Go out on 7th Avenue, look at new Penn. Hotel across the street.

Turn left or north, and walk 1½ blocks to 34th street, turn right or east on 34th street and you will find some good restaurants, very reasonable.

Come out of restaurant, turn right or east half block to Broadway, you are at Herald Square. Looking left or north, you see Herald building, on top of building are two iron men with hammers that hit large bell on the hour, you should be able to reach here by eight o'clock.

Take a southbound surface car to City Hall, (have fare ready to drop in box) fare five cents, half hour to City Hall.

Get off at City Hall, looking over City Hall to left, you will see Municipal building, largest city administrative building in the world.

Looking south to right you will see Woolworth building, highest building in the world, 60 stories.

Walk to back of City Hall, and out on Brooklyn bridge, on other side of bridge is Brooklyn, you will not have time to go there.

Looking south you see New York Bay, and if the day is clear you can see the Statue of Liberty, beyond the Statue is Staten Island.

Turning around and looking north, you see Williamsburg bridge, should see all of this by 9:30 A. M.

Go back to Broadway and take car going north, or to the right, and tell conductor to let you off at 14th street and 5th Avenue. You are now at Union Square. Take bus going north on 5th Avenue marked RIVERSIDE DRIVE, fare 10 cents, get on top of bus.

At 23d street you are at Madison Square, on the left is the Flat Iron building, on the right you see the Metropolitan Tower, north of tower on the right you see Madison Square Garden, with Diana on top of tower.

At 34th street you see the Waldorf-Astoria Hotel.

At 42d street you see the New York City Library.

From here up you see the swellest shops in New York City.

At 52d street you see St. Patrick's Roman Catholic Cathedral, opposite the Vanderbilt mansion.

Bus turns left on 58th street to Broadway, you are now at Columbus Circle.

Columbus Statue in center. This is also the main entrance to Central Park, where you see the Memorial Statue to Battleship Maine.

Bus continues north to 72d street, turns left to Riverside Drive.

The Drive is about 600 feet above the HUDSON river, and you get a fine view up and down the river for miles, New Jersey is on the opposite side. This is the swell drive of New York City, and you will see some beautiful mansions and apartment houses on the way up to Grant's Tomb, 11th street. Get off and visit the tomb, you can spend an hour here very nicely. Back of the tomb is a tree planted to the memory of Gen. Grant, by Li Hung Chang, when he was Chinese Ambassador in this country. All of this route should be covered by one o'clock.

From the river about ten minutes walk, you are at Columbia University. Walking south about ten minutes, you are at the church of St. John the Divine, considered the most handsome Episcopal Cathedral in the world.

Take 8th Avenue surface car down town, runs along Central Park from end to end, get off at 42d street, walk east to Broadway. In this block from 8th Avenue to Broadway, you see more theatres than in any block in the world. This is the theatre district, and at Broadway and 42d street you are in the heart of the White Light district, the Gay White Way.

Turn south or right to 34th street, (10 minutes walk) turn right on 34th street and you can go in the same restaurant you had breakfast, or any other and get dinner. You should get back here by 3:30 P. M.

Come out of restaurant, turn left, walk to corner, and there is the depot.

This route will cover most of the popular points of interest in New York City.

Should you want to specialize in some one place to visit, such as the Bronx, Zoo, Aquarium, or Metropolitan Museum. It would take a week of your time to see either of these places properly.

The Bowery does not exist as a sightseeing proposition any more, turned into manufacturing and wholesale houses.

Trusting those who make the trip will have a pleasant time, and if my interest in the matter will be of any benefit to the excursionists, I assure you the pleasure will be all mine.

Sincerely yours,
GEO. W. CALAHAN.

Won't Serve On State Board

George B. Miller, president of the State Board of Education, and Pierre S. duPont, both of Wilmington, have both written Governor Denny, declining his invitation to become members of the new State Board of Education of five members. Both expressed to the governor their regret in not feeling able under present conditions and circumstances, to accept the honor.

Preventive Medicine

The tendency of medical science is toward preventive measures. It is easier and better to prevent than to cure. Pneumonia, one of the most dangerous diseases that medical men have to contend with, often follows cold attacks of the grippe. The cold prepares the system for the reception and development of the pneumonia germ. The longer the cold hangs on, the greater the danger. Take Chamberlain's Cough Remedy as soon as the first indication of a cold appears so as to get rid of it with the least possible delay. It is folly to risk an attack of pneumonia when this remedy may be obtained for a trifle.
